18. Cost of living adjustment (COLA) payments

18.1. Definitions

The following definitions apply for the purposes of the Cost of Living Adjustments (COLA) Payments clause:

agreement year – means one of the two 12-month periods from 1 September in one year to 31 August in the following year that includes a calculation date.

base wages – for an eligible employee, means the salary actually payable to the particular employee in the relevant agreement year for work covered by this Agreement and includes higher duties performed by the employee under this Agreement and includes the casual loading where applicable. It does not include any other allowances or additional payments howsoever described (such as: disability allowances or special rates, all-purpose allowances, overtime payments, shift penalties, weekend penalties, public holiday penalties, aggregated penalties or allowances, any payments of accrued leave where the leave is not taken; any payments for Time Off In Lieu (TOIL) where the TOIL is not taken, COLA payments from previous periods, etc).

calculation date – means, either:

- 31 August 2024 (COLA Payment HWF EB2 Year 1); or
- 31 August 2025 (COLA Payment HWF EB2 Year 2).

COLA payment percentage – see clause 18.3.

CPI – means the Brisbane Consumer Price Index (all groups, March quarter annual percentage change from the March quarter of the previous year), for the March that falls within the relevant *agreement year*, as published by the Australian Bureau of Statistics. Treasury will advise agencies of the CPI relevant to COLA considerations upon its release in each year.

eligible employee – see clause 18.2.

Queensland government employee – means a person employed in a government entity, as defined in section 24 of the *Public Service Act 2008* as in force at 1 October 2022, and the entities specified at sections 24(2)(c), 24(2)(d) and 24(2)(h) of the *Public Service Act 2008*: the parliamentary service, the Governor’s official residence and its associated administrative unit, and the police service.

wage increase under the Agreement – means the wage increase of either 4% or 3%, as specified in clause 17 of this Agreement, that occurs at the commencement of an *agreement year*.

18.2. Eligibility

- (a) Eligible employees covered by this Agreement may be entitled to receive Cost of Living Adjustment (COLA) payments based on the calculation dates, for up to two years only, and ending for the calculation date of 31 August 2025. It is acknowledged that eligible employees have already received a COLA payment for the period 1 September 2022 to 31 August 2023 pursuant to *Health Employment Directive 07/22 Aboriginal and Torres Strait Islander Health Workforce: Interim Wage Increase*.
- (b) An employee is an eligible employee if they performed work under this Agreement during a relevant agreement year and they are covered by this Agreement on the relevant calculation date for the associated COLA Payment.
- (c) In recognition of employee mobility across the sector, where an employee would otherwise be an eligible employee in accordance with clause 18.2(b), but they are not covered by this Agreement on the relevant calculation date due to being employed elsewhere as a Queensland government employee on the calculation date, they will be deemed to be an eligible employee for the associated COLA Payment. To facilitate payment of the COLA Payment in this circumstance, the employee is required to provide relevant details of their eligibility to the relevant Queensland Health payroll team. Contact details are found on the Queensland Health Intranet on the Payroll and Rostering (PARIS) page.

Example – an employee works for the first three months under this Agreement, during a relevant agreement year, then takes up employment with a different Government department. They remain employed with the new Government department as at the relevant calculation date under this Agreement. Provided the employee provides the required notice and details of their current employer (as specified above) which confirms that they are a Queensland government employee as at the calculation date, they will be an eligible employee for that particular COLA Payment.

- (d) An employee who starts being covered by this Agreement after a *calculation date* is not eligible for the associated COLA Payment.

Example – an employee starts being covered by the Agreement on 17 September 2024. The employee is not eligible for COLA Payment HWF EB2 Year 1.

- (e) An eligible employee who did not perform work under this Agreement for the full agreement year, will receive a pro-rata COLA Payment by reference to the base wages they received that was attributable to work under this Agreement.

Example one – an eligible employee is employed and works for five months under this Agreement during a relevant agreement year. Their base wages for the agreement year will reflect the five months they worked.

Example two – an eligible employee is employed for 12 months under this Agreement during a relevant agreement year and in those 12 months, works for six months, takes three months leave at half pay and takes three months leave without pay, under this Agreement. Their base wages for the agreement year will reflect the six months they worked, three months where they earned half pay and three months where they earned no pay.

Example three – an employee is employed for 12 months under this Agreement during a relevant agreement year and in those 12 months, works for six months under this Agreement and is temporarily seconded and works for six months under a different Agreement. Their base wages for the agreement year will reflect six months they worked under this Agreement.

- (f) An eligible employee who is casual or part-time will receive a pro-rata COLA Payment based on the hours they worked in the relevant agreement year because of the definition of base wages.

Example – a part-time employee works 0.6 full-time equivalent during the agreement year. The employee's base wages for the agreement year reflect their hours of work.

- (g) In addition to the other requirements of clause 18.2, casual employees are eligible employees provided they have performed work under this Agreement, or as a Queensland government employee, within the 12-week payroll period immediately prior to the relevant calculation date.

18.3. Calculation and payments

- (a) Step one

- (i) A COLA Payment is only payable if, for the relevant agreement year, CPI exceeds the wage increase under the Agreement.

- (b) Step two

- (i) The relevant COLA Payment is calculated by first determining the percentage difference between the wage increase under the Agreement and CPI for the relevant agreement year and each COLA Payment is capped at 3% (the 'COLA percentage').

Example one: For COLA Payment HWF EB2 Year 2, the agreement year is 1 September 2024 to 31 August 2025. The wage increase under the Agreement is 3% on 1 September 2024. In April 2025, the ABS releases the CPI figure for March 2025 as 3.9%. The COLA Payment is calculated as the difference between 3% and 3.9%, i.e. 0.9%. 0.9% is less than the 3% cap, therefore the COLA percentage is 0.9%.

Example two: For COLA Payment HWF EB2 Year 1, the agreement year is 1 September 2023 to 31 August 2024. The wage increase under the Agreement is 4% on 1 September 2023. In April 2024, the ABS releases the CPI figure for March 2024 as 7.5%. The COLA Payment is calculated as the difference between 4% and 7.5%, i.e. 3.5%. However, because the COLA Payment is capped at 3%, the COLA percentage is 3%.

- (c) Step three

- (i) To calculate an eligible employee's COLA Payment, the relevant employee's base wages for the agreement year are adjusted to determine what their base wages would have been if the relevant wage increase under the Agreement had not been applied for that agreement year. This is done by using the following formula to first determine the value of 'a':

- (ii) $a = 100 / (1 + \text{relevant wage increase under the Agreement expressed as a decimal})$
 - (iii) Then the relevant employee's base wages are then multiplied by 'a', where 'a' is expressed as a percentage:
 - (iv) *Example: The wage increase in the Agreement for that agreement year was 4% on 1 September 2023. The base wages payable to the relevant employee for the agreement year from 1 September 2023 to 31 August 2024 is \$90,000. The calculation occurs as follows:*
 - $a = 100 / (1 + 0.04)$
 - $a = 96.1538$
 - $\$90,000 \text{ adjusted by } 96.1538\% = \$86,538.42;$
- (d) Step four
- (i) The figure from clause 18.3(c) is then multiplied by the COLA Percentage calculated in clause 18.3(b) to determine the particular employee's COLA Payment for that agreement year.
 - (ii) *Example: The COLA percentage is 3%.*
 - $\$86,538.42 \text{ multiplied by } 3\% = \$2,596.15$
 - (iii) COLA Payments are one-off, do not form part of base salary and will be taxed according to the applicable law.

18.4. Timing of information and payments

- (a) For eligible employees under clause 18.2(b), if payable, the relevant COLA Payment will be made within three months following the relevant calculation date and release of the CPI.
- (b) For eligible employees under clause 18.2(c), if payable, the relevant COLA Payment will be made within three months of the employee providing the notice of their employment pursuant to clause 18.2(c).
- (c) Queensland Health will provide advice to unions and employees covered by this Agreement on the timing of payroll processing for each COLA payment.

19. Superannuation

- 19.1. Superannuation contributions will be made to a fund of the employee's choice, provided the chosen fund is a complying superannuation fund that will accept contributions from the employer and the employee.
- 19.2. Where an employee has not chosen a fund in accordance with clause 19.1 above, the employer must make superannuation contributions for the employee (including salary sacrifice contributions) to the Government Division of Australian Retirement Trust (known as QSuper).
- 19.3. The choice must be made in a form determined by the employer or in any standard form released by the Australian Taxation Office (ATO). The employer must implement the employee's choice for superannuation contributions made at any time after 28 days from the date the employee's choice is received.
- 19.4. The employer must contribute to a superannuation fund for an employee the greater of:
 - (a) the charge percentage prescribed in the *Superannuation Guarantee (Administration) Act 1992* (Cth) (SGAA Act), of the "ordinary time earnings" of the employee as defined in the SGAA Act; and
 - (b) the rate prescribed by regulation under section 23 of the *Superannuation (State Public Sector) Act 1990* (S(SPS) Act 1990) or, in absence of a regulation, as prescribed under section 64 of the S(SPS) Act 1990.

20. Salary sacrificing

- 20.1. An employee may elect to sacrifice up to 50% of salary payable under this Agreement, and also where applicable the payments payable via the employer to the employee under the *Paid Parental Leave Act 2010 (Cth)*.
- 20.2. Despite clause 20.1 above, employees may sacrifice up to 100% of their salary for superannuation.
- 20.3. The individual salary sacrificing arrangements of any employee will remain confidential at all times. Proper audit procedures will be put in place which may include private and/or Auditor-General reviews. Authorised union officials will be entitled to inspect any record of the employer to ensure compliance with the salary sacrificing arrangements, subject to the relevant industrial legislation.
- 20.4. For the purposes of determining what remuneration may be sacrificed under this clause, 'salary' means the salary payable under Schedule 1 to this Agreement, and also where applicable the payments payable via the employer to the employee under the *Paid Parental Leave Act 2010 (Cth)*.
- 20.5. Salary sacrificing arrangements will be made available to the following employees covered by this Agreement in accordance with Office of Industrial Relations (OIR) Circular C2-22 (Arrangements for Salary Packaging) and any other relevant OIR Circulars issued from time to time:
 - (a) permanent full-time and part-time employees;
 - (b) fixed term temporary full-time and part-time employees; and
 - (c) long-term casual employees as determined by the *Industrial Relations Act 2016*.
- 20.6. Fringe benefits tax (FBT) exemption cap: The FBT exemption cap is a tax concession under the *Fringe Benefits Tax Assessment Act 1986 (Cth)* for limited categories of employers. The FBT exemption cap is not an employee entitlement. The manner of the application of the FBT exemption cap is determined by the employer in accordance with the FBT legislation. Under the FBT legislation, to be eligible for the FBT exemption cap at the time fringe benefits are provided, the duties of the employment of an employee must be exclusively performed in, or in connection with, a public hospital or predominantly involved in connection with public ambulance services.
- 20.7. Where an employee who is ineligible for the FBT exemption cap sacrifices benefits attracting FBT, the employee will be liable for such FBT.
- 20.8. Under the FBT legislation, the FBT exemption cap applies to all taxable fringe benefits provided by the employer, whether through the salary sacrifice arrangements or otherwise. Where an employee who is eligible for the FBT exemption cap sacrifices benefits attracting FBT, the employee will be liable for any FBT caused by the FBT exemption threshold amount being exceeded as a result of participation in the salary sacrifice arrangements. To remove any doubt, any benefits provided by the employer separate from the salary sacrifice arrangements take first priority in applying the FBT exemption cap in respect of the 2022/23 FBT year and prior FBT years. However, in accordance with a Queensland Government policy decision, any salary sacrificed benefits take priority over benefits provided by the employer separate from the salary sacrifice arrangements in applying the FBT exemption cap in respect of the 2023/24 FBT year and future FBT years.
- 20.9. Where the employee has elected to sacrifice a portion of the payable salary:
 - (a) subject to Australian Taxation Office (ATO) requirements, the sacrificed portion will reduce the salary subject to appropriate tax withholding deductions by the amount sacrificed;
 - (b) any allowance, penalty rate, overtime, weekly workers' compensation benefit, or other payment, to which an employee is entitled under their respective award, Act or Statute which is expressed to be determined by reference to the employee's salary, will be calculated by reference to the gross salary which the employee would receive if not taking part in salary sacrificing arrangements;
 - (c) salary sacrificing arrangements will be maintained during all periods of leave on full pay, including the maintenance of cash and non-cash benefits; and

- (d) the employee's salary for superannuation purposes and severance and termination payments will be the gross salary which the employee would receive if not taking part in salary sacrificing arrangements.

20.10. The following principles will apply to employees who avail themselves of salary sacrificing:

- (a) no cost to the employer, either directly or indirectly;
- (b) as part of the salary sacrifice arrangements, the costs for administering the package via a salary sacrifice bureau service, and including any applicable FBT, will be met without delay by the participating employee;
- (c) there will be no additional increase in superannuation costs or to FBT payments made by the employer that would not otherwise be payable had the employee not engaged in salary sacrifice arrangements;
- (d) the employee may cancel any salary sacrificing arrangements by giving one month's notice of cancellation to the employer, and similarly the employer will give the employee one month's notice of termination;
- (e) employees should obtain independent financial advice prior to taking up salary sacrifice arrangements; and
- (f) there will be no significant additional administrative workload or other ongoing costs to the employer.

25.3. An employee on call who is required to perform duties without the need to leave the employee's place of residence and/or without the need to return to the facility will be reimbursed for a minimum of one hour's work for each time the employee performs such duties. If the employee is required to again perform duties within that one hour period, no further minimum payment will apply.

- (b) For a HWF3.5 employee in receipt of a higher education incentive allowance for a second Certificate IV in accordance with clause 29.2(a) eligibility for payment of the higher education allowance for a second Certificate IV qualification ceases when an approved Diploma or higher qualification is obtained to satisfy clause 41.3(b), and increment progression to paypoint HWF3.6 occurs.

29.5. Employee commencement date following the Phase 2 implementation

- (a) Accelerated paypoint advancement, or the payment of the applicable higher education incentive allowance, will apply from:
 - (i) the date an employee commences in the position; or

- (a) An employee who obtains an eligible qualification for this incentive, and who is not at the maximum paypoint of their classification, will be advanced by one paypoint from a date in accordance with clauses 29.5(a) to 29.5(c) above, but will retain their existing increment date.

- (b) The ‘maximum paypoint of a classification’ for the purpose of the higher education incentive means:

1	1%
2	2%
3	3%
4	5%
5	6%
6	8%
7	10%

- (b) The higher education incentive allowance is an all purpose allowance.

29.8. When the higher education incentive allowance is payable

(a) Employees at the maximum paypoint

- (i) An employee who qualifies for an allowance in accordance with clause 29 and who is at the maximum paypoint of their classification is entitled to receive the relevant allowance from the date in accordance with clauses 29.5(a) to 29.5(c) above.
- (ii) There is no requirement for such employee to be at the maximum paypoint of their classification for 12 months before receiving the allowance.

(b) Employees at the second last paypoint

Where an employee is on the second last paypoint at the time of receiving the accelerated advancement in paypoint, in accordance with clauses 29.5(a) to 29.5(c) above, which would place them on the maximum paypoint, the relevant allowance is payable from their next increment date and not upon completion of 12 months service at the maximum paypoint.

(c) Employees not at the second last or maximum payment

An employee who qualifies for an allowance under clause 29 and who is not at the second last or the maximum paypoint of their classification is entitled to the relevant allowance upon the completion of 12 months at the maximum paypoint.

29.9. Entitlement upon higher duties

- (a) When an employee who is in receipt of the higher education incentive incremental advancement or the allowance subsequently undertakes higher duties, and the qualification remains eligible for the incentive at the higher classification level in accordance with clause 29.1, the employee becomes eligible for the incremental advancement (one paypoint) at the higher classification level, on condition the qualification remains relevant to the higher level position. The incremental advancement is payable irrespective of whether the employee is in receipt of the allowance at their lower classification level.

- (b) An employee who is in receipt of the higher education incentive incremental advancement or the allowance subsequently undertakes higher duties, and the qualification remains eligible for the incentive at the higher classification level in accordance with clause 29.1, the employee becomes eligible to access the higher education incentive allowance once they have satisfied clause 29.8 for the higher classification level.
- (c) Employees who are in receipt of a higher education incentive are not entitled to retain the higher education incentive allowance or the incremental advancement when relieving in positions classified at a level for which the qualification does not provide eligibility in accordance with clause 29.1. These employees resume receiving the higher education incentive when they revert to their position at the eligible lower classification level.

29.10. Entitlement upon promotion

- (a) When an employee who is in receipt of the higher education incentive is subsequently promoted to a higher classification level, and the qualification provides eligibility for the incentive at the higher classification in accordance with clause 29.1, they become eligible to be advanced one increment level, on condition the qualification remains relevant to the higher level position.
- (b) The employee becomes eligible to access the higher education incentive allowance once they have satisfied clause 29.8 for the higher classification level.
- (c) Employees are not entitled to the higher education incentive when promoted to positions for which their qualification(s) are not eligible for the incentive, as prescribed at clause 29.1.

29.12. Entitlement where more than one eligible qualification

- (a) An employee who has advanced one paypoint within a classification level under the above provisions is not eligible for any further advancement. This applies to all classification levels, HWF3, inclusive of the special arrangements for HWF3 at clause 29.2.

Example: If a HWF3 employee receives a paypoint advancement for a second Certificate IV, or the Diploma that enables access to paypoints HWF3.6 and above, no further paypoint advancements may occur if the employee obtains additional qualifications, such as a second Diploma or Bachelor degree, while remaining classified at HWF3.

- (b) An employee who holds one eligible qualification, and subsequently obtains a further eligible qualification that attracts a higher value allowance in accordance with clause 29, on application will be eligible for recognition of the applicable higher value allowance in lieu of the lower value higher education incentive allowance, thus changing the employee's entitlement from the lower to the higher rate of the allowance.
- (c) Only one higher education incentive allowance is to be paid at any one time.

29.13. Qualification no longer relevant

When an employee's qualification is no longer relevant to their current position, any allowance payable under the above provisions will cease from the date the employer formally advises the employee of such situation in writing.

PART 10 – Industrial relations matters and consultation

86. Collective industrial relations

- 86.1. The employer is committed to collective agreements with unions and does not support non-union agreements. The employer is committed to the *Queensland Government Commitment to Union Encouragement Policy*, *HR Policy F4 Union Encouragement* and the *Union Encouragement Guideline*. The employer will communicate these commitments to employees at all levels, in all work units and at all localities.
- 86.2. The parties to this Agreement acknowledge that structured, collective industrial relations will continue as a fundamental principle. The principle recognises the important role of unions in the workplace and the traditionally high levels of union membership in the workplaces subject to this Agreement.
- 86.3. The parties to this Agreement support constructive relations between the parties and recognise the need to work co-operatively in an open and accountable way. It is expected both management and unions adopt a problem-solving approach where there is disagreement about these matters.
- 86.4. Additional arrangements regarding union encouragement are contained in *HR Policy F4 Union Encouragement* as listed in Schedule 3 of this Agreement.
- 86.5. The employer acknowledges the constructive role democratically elected union delegates undertake in the workplace in relation to union activities that support and assist members. That role is to be formally recognised, accepted and supported to participate effectively in consultative structures, perform a representative role, and further the effective operation of grievance and dispute settlement procedures.
- 86.6. Employees will be given full access to union delegates/officials during working hours to discuss any employment matter or seek union advice, provided that disruption to service delivery is minimised and work requirements are not unduly affected. Where either party has concerns, these should be discussed to enable access provided in accordance with the requirements of this clause.

- 86.7. As part of the employers' commitment to union encouragement, union officials are to be provided the opportunity to discuss union membership with new employees and provide employees with relevant union material, including membership forms. Unions will be provided with dedicated time to present to the new starters during orientation programs, and/or allow union representatives to discuss union membership with new employees during working hours.
- 86.8. Provided that service delivery and work requirements are not unduly affected, delegates will be provided convenient access to facilities for the purpose of undertaking union activities.
- 86.9. Reliable facilities available for delegate use includes: telephone, computer, internet, email, photocopier, facsimile machine, storage facilities, meeting rooms and notice boards. It is expected that management and delegates will take a reasonable approach to the responsible use of such facilities. Furthermore, management will respect the privacy of delegates during the use of such facilities.

87. Commitment to consultation

- 87.1. The parties to this Agreement recognise that for the Agreement to be successful, the initiatives contained within this Agreement need to be implemented through an open and consultative process between the parties.
- 87.2. The parties to this Agreement are committed to involving employees and their union representatives in the decision-making processes that may affect the workplace. Employees will be encouraged to participate in the consultation processes by being allowed adequate time to understand, analyse, seek appropriate advice from their union and respond to such information.
- 87.3. "The requirement of consultation is never to be treated perfunctorily or as a mere formality" (*Port Louis Corporation v. Attorney-General of Mauritius* (1965) AC 1111 at 1124).
- 87.4. "Consultation" involves more than a mere exchange of information. For consultation to be effective, the participants must be contributing to the decision-making process not only in appearance, but in fact. [*Commissioner Smith (Australian Industrial Relations Commission), Melbourne, 12 March 1993*].
- 87.5. The consultation process requires the exchange of timely information relevant to the issues at hand so that the parties have an actual and genuine opportunity to influence the outcome, before a final decision is made. Except where otherwise provided within this Agreement, the parties also recognise that the consultation process does not remove the rights of management to make the final decision in matters that may affect the workplace.

88. Health Consultative Forums

- 88.1. The Health Consultative Forums (HCFs) (or their equivalent) will operate in accordance with the terms of reference agreed by the Reform Consultative Group in February 2024, or as updated from time to time.

- 89.3. Issues of concern in relation to the filling of permanent positions in work units should be raised at the Health Consultative Forum (or equivalent) as necessary. Nothing in this provision restricts a union from utilising the disputes procedure in relation to non-compliance in relation to the filling of permanent positions in work units.
- 89.4. The local organiser/delegate may request from relevant local Human Resources/line manager and will be provided a report of relevant employee resignations to assist in monitoring of timeframes within three days.

 - (c) Identify opportunities to simplify and streamline this process to ensure pays are corrected in a timely manner.
- 91.3. The Payroll Working Group will determine an appropriate use of ad hoc payments where an employee's pay is not correct.

PART 11 – Organisational change and restructuring

92. Organisational change and restructuring

- 92.1. Prior to implementation, all organisational change will need to demonstrate clear benefits such as enhanced service delivery to the community, improved efficiency and effectiveness and will follow the agreed change management processes as outlined in the *Queensland Health Change Management Guidelines*. While ensuring the spirit of the Guidelines is maintained in applying the document, the parties acknowledge that it has been designed as guidelines to be applied according to the circumstances.
- 92.2. When it is decided to conduct a review, union representatives will be advised as soon as practicable and consulted from the outset. All parties will participate in a constructive manner.
- 92.3. Furthermore, details will be included that provide for encouraging employees to participate in the consultative processes by allowing adequate time to understand, analyse and respond to various information that would be needed to inform employees and their unions.
- 92.4. All significant organisational change and/or restructuring that will impact on the workforce (e.g. job reductions, deployment to new locations, major alterations to current service delivery arrangements, models of care changes) will be subject to the employer establishing such benefits in a business case which will be tabled for the purposes of consultation at the Health Consultative Forum (or equivalent). A business case is not required for minor changes or minor restructuring.
- 92.5. There will be no downgrading of positions during the life of the Agreement other than through organisational change processes.
- 92.6. It is acknowledged that management has a right to implement changes to ensure the effective delivery of health care services. The consultation process will not be used to frustrate or delay the changes but rather ensure that all viable options are considered. If this process cannot be resolved at the Hospital or Health Service level (or equivalent) in a timely manner either party may refer the matter to the HWFCG for resolution.
- 92.7. The employer commits to provide a just transition for workers who will be impacted by the introduction of new technology. The employer will ensure early identification and engagement of employees likely to be affected by the future introduction of technology, prepare workers for the change, and provide appropriate support to workers who are likely to be impacted. This support may include planning with workers to transition to new roles in Queensland Health.

- 92.8. For organisational change the emphasis will be on minimum disruption to the workforce and maximum placement of affected staff within employers. It is not in the best interest for employees to undergo constant change, therefore, the employer will minimise the duration and complexity of organisational change where possible. Organisational restructuring should not result in a large scale 'spilling' of jobs.
- 92.9. Subject to the above, the parties acknowledge that where the implementation of workplace change results in fewer employees being required in some organisational units, appropriate job reduction strategies will be developed in consultation with relevant unions.
- 92.10. Prior to the implementation of any decision in relation to workplace change likely to affect security and certainty of employment of employees, such changes will be subject to consultation with the relevant union/s. The objective of such consultation will be to minimise any adverse impact on security and certainty of employment.
- 92.11. After such discussions have occurred and it is determined that fewer employees are required, appropriate job reduction strategies will be developed that may include non-replacement of resignees and retirees and the deployment/redeployment and retraining of excess employees which will have regard to the circumstances of the individual employee/s affected. This will occur in a reasonable manner.
- 92.12. Where individuals unreasonably refuse to participate or cooperate in deployment/redeployment and retraining processes, the full provisions for managing redundancies will be followed. No employee will be redeployed against their will. In those cases where the offering of Voluntary Early Retirements (VERs) to selected employees is necessary, this will occur in full consultation with the relevant union/s.
- 92.13. Consultative arrangements required to be followed in the management of any organisational change and restructuring proposal will be in accordance with the *Queensland Health Change Management Guidelines* which includes consultation with all relevant unions.
- 92.14. In addition, any changes to hours of operation will be subject to consultation.
- 92.15. Industrial entitlements and Award entitlements, including, but not limited to, shift work allowances, penalty rates, overtime and breaks will continue to apply in the event of a change to hours of operation.

PART 12 - Workload management

93. Workload management

- 93.1. The parties acknowledge the importance of workload management as a critical issue in the workplace. The parties acknowledge the importance of determining role allocations, hours of work, overtime and higher duties in a fair and reasonable manner, taking into account operational requirements and workload implications.
- 93.2. The employer acknowledges the duty of care to both staff and patients to provide a safe environment for the delivery of health services and is therefore committed to the maintenance of staffing levels to ensure the delivery of quality health services.
- 93.3. Management will actively balance the reasonable workload of staff and the effective and efficient delivery of health services.
- 93.4. The parties agree that appropriate strategies, work practices and staffing levels (including backfilling of staff) will minimise the effects of excessive workloads and/or case loads.
- 93.5. Until such time as the Aboriginal and Torres Strait Islander Health Workforce stream specific Workload Management Kit is developed in accordance with clause 77.1(d), the parties agree to continue to use the *Workforce Workload Management Kit* to raise, investigate, resolve and monitor workload concerns.
- 93.6. The parties further agree that a sub-committee of the HWFCG will be established to address issues of workload management of a state-wide nature and/or workload management issues that cannot be resolved at a local level.

- 93.7. The Health Consultative Forum (or equivalent) will have workload management issues as a regular agenda item. Where one of the parties consider workload management issues need investigation, the workload management tool will be utilised by a Health Consultative Forum subgroup that will be established to research the issues and formulate a recommendation for consideration of the Health Consultative Forum, and if appropriate, subsequent implementation. If agreement cannot be reached, the issues will be referred by either party to HWFCG for consideration and resolution.
- 93.8. Best practice models for workload management identified through these processes will be promulgated through the employer's facilities.

PART 13 – Employment security and contracting

94. Employment security

- 94.1. The parties agree that the *Queensland Government's Employment Security Policy* applies. The employer is committed to job security for its permanent employees. This clause is to be read in conjunction with the Queensland Government's Employment Security Policy.
- 94.2. The parties acknowledge that job security for employees assists in ensuring workforce stability, cohesion and motivation and hence is central to achieving the objectives of this Agreement.
- 94.3. Job reductions by forced retrenchments will not occur. There will be no downgrading of positions during the life of the Agreement other than through organisational change processes.
- 94.4. Volunteers, other unpaid persons or trainees will not be used to fill funded vacant positions.
- 94.5. The employer is the preferred provider of public health services for the Government and the community.
- 94.6. The employer supports the accepted industrial principle that fixed term temporary and casual employees have the right to raise concerns with their employer in relation to their employment status or any other work related matters without fear of victimisation. Unions may refer instances of alleged victimisation directly to the HWFCG for attention.
- 94.7. The employer acknowledges that casual employees, other than short term casual employees as defined by the *Industrial Relations Act 2016*, have rights to unfair dismissal entitlements in accordance with the provisions of the relevant legislation.
- 94.8. Nothing in this Agreement will prevent the provision of public health clinical services being provided by the private sector because they are not able to be provided by the public sector.

95. Permanent employment

- 95.1. The parties recognise that permanent employment is the default type of engagement under this Agreement and are committed to maximising permanent employment where possible. Non-permanent forms of employment should only be utilised where permanent employment is not viable or appropriate. The employer will utilise workforce planning and management strategies to assist in determining the appropriate workforce mix for current and future needs.

96. Permanent employment for fixed term temporary and casual employees

- 96.1. The parties are committed to maximising permanent employment opportunities for non-permanent employees. The parties agree to implement the whole-of-government Directive and policy which implements section 114 of the *Public Sector Act 2022*.
- 96.2. Where a casual employee is engaged on a regular and systematic basis, consideration may be given by the employer as to providing permanent employment where appropriate.
- 96.3. Where employees are engaged on a fixed term temporary basis, contracts of employment should reflect the actual duration of the engagement and the reason for the engagement being temporary. Recruitment of fixed term temporary employees is to be in accordance with *HR Policies B1 Recruitment and Selection, B24 Appointments – Permanent and/or Fixed Term Temporary – Commonwealth and/or State Funded*

Programs, B25 Fixed Term Temporary Employment and B52 Conversion of Temporary Employees to Permanent Status.

- 96.4. Where employees are engaged on a casual basis, the engagement should be in accordance with *HR Policy B26 Casual Employment*.

- 97.1. A fixed term temporary and casual conversion panel internal review process (Internal Review Process) applies where:
- (a) there has been an outcome of a review of status of employment by decision maker in accordance with *Public Sector Commission Directive 02/23 Review of Non-Permanent Employment*;
 - (b) the outcome of the review decision has been notified to the employee in accordance with section of the *Public Sector Act 2022*;
 - (c) an appeal under section 131 of the *Public Sector Act 2022* has not been made; and
 - (d) employee's union representative or the employee (each "the notifier") are of the view the decision maker has made an incorrect decision in accordance with the applicable directive.
- 97.2. The notifier may, within seven days of the employee being notified of a decision, inform the decision maker that the decision is not accepted, and on this basis request an Internal Review Process is conducted. In which case the temporary employee review outcome becomes a preliminary decision.
- 97.3. Within 14 days of receiving the request under clause 97.2, the nominated Department of Health Human Resources Branch (HR Branch) representative must hold a conference for the purposes of conducting a review of the preliminary decision. The members for the purposes of conference will comprise of the Hospital and Health Service or Division representative(s); the Department of Health; and the notifier.
- 97.4. The notifier and Hospital and Health Service or Division representative will provide all relevant materials of the preliminary decision to the nominated HR Branch representative in advance of the conference.
- 97.5. The purpose of the conference is to attempt to reach consensus on the preliminary decision to convert or not to convert.
- 97.6. If at the conference consensus is reached to overturn the preliminary decision, the revised decision will be communicated in writing to the notifier and to the decision maker in order to implement the decision.
- 97.7. If at the conference consensus cannot be reached between the parties, the HR Branch, having regard to requirements of the relevant directive, may arrive at a decision contrary to the original decision maker and decide to overturn the preliminary decision. Where the outcome of the review decision is overturned, the new decision will be communicated in writing to the notifier and to the original decision maker in order to implement the new decision.
- 97.8. Where consensus cannot be reached between the parties or HR Branch does not overturn the preliminary decision, it will become the final decision with the effective date being the day the employee receives the notice not to overturn the preliminary decision.
- 97.9. Where a notifier withdraws their request for an Internal Panel Review Process or where the notifier commences an appeal under section 131 of the *Public Sector Act 2022* prior the conference being held, this process is taken to be terminated.
- 97.10. The employer will provide reports on the conversion of fixed term temporary and casual employees that contain classification stream and occupational type for employees covered by this Agreement to the HWFCG on a quarterly basis.
- 97.11. The parties will review the effectiveness of the activities associated with this clause, 12 months from certification of this Agreement. The parties will attempt to minimise disputes about the operation of this clause. Any disputes about the operation of this clause that cannot be resolved may be referred to the Queensland Industrial Relations Commission for assistance.

98. Additional permanent hours for part-time employees

- 98.1. Permanent part-time employees, following approval, may work more than their substantive (contracted hours) on an ad-hoc or temporary basis.
- 98.2. Where an employee works more than their substantive (contracted hours) on a regular basis over a 12 month period, the employee may request in writing to amend their substantive permanent part-time hours to reflect the increased hours worked. Such requests should not be unreasonably refused.
- 98.3. Where an employee has been on parental leave within the previous 12 months the employer will consider the 12 months of service either side of the parental leave.
- 98.4. If an employee is refused an increase to their contracted hours pursuant to this clause, they must be provided with written reasons for the decision within seven days of the making of that decision.
- 98.5. Any agreed permanent increase to an employee's substantive part-time hours is limited to a maximum of 64 hours per fortnight for employees classified at HWF1 to HWF7.

99. Contracting out

- 99.1. It is the clear policy of the employer not to contract out or to lease current services. The parties are committed to maximising permanent employment where possible.
- 99.2. There will be no contracting out, outsourcing or leasing of services currently provided by the employees engaged and covered under the Aboriginal and Torres Strait Islander Health Workforce classification stream at levels HWF1 to HWF6 during the life of the Agreement.
- 99.3. For employees of other streams, there will be no contracting out or leasing of services currently provided by the employer except in the following circumstances:
 - (a) in the event of critical shortages of skilled staff;
 - (b) the lack of available infrastructure capital and the cost of providing technology;
 - (c) extraordinary or unforeseen circumstances; or
 - (d) it can be clearly demonstrated that it is in the public interest that such services should be contracted out.
- 99.4. The employer agrees that it will include as a condition of all future labour contracts a requirement for contractors to pay wage rates, which are no less favourable in aggregate for a comparable *Aboriginal and Torres Strait Islander Health Workforce (Queensland Health) Certified Agreement (No. 1) 2019* employee as at 1 March 2022. This provision will apply to all relevant tenders called and relevant contracts entered into on or after the date of the certification of this Agreement.

- 99.6. Where the employer seeks to contract out or lease current services, the following general consultation process will be followed:
 - (a) The relevant union/s will be consulted as early as possible. Discussions will take place before any steps are taken to call tenders or enter into any otherwise binding legal arrangement for the provision of services by an external provider.  - (iii) ensure that employees are given the option to accept deployment/redeployment with the employer; and

99.7. In emergent circumstances, where the employer seeks to contract out or lease current services, the following consultation process will be followed:

- (b) In all cases information must be provided to the next HWFCG meeting for review in relation to these cases and to assist in determining strategies to resolve any issues that arise. These circumstances would include:
 - (i) in the event of critical shortages of skilled staff; or
 - (ii) extraordinary or unforeseen circumstances.

99.8. Any dispute between the parties arising out of this clause will be dealt with in accordance with clause 12 of this Agreement.

100.3. Where Queensland Health enters contracts with ATSICCHOs this will only occur where there is no diminution of Queensland Health services or reduction of roles covered by this Agreement.

100.4. The parties acknowledge ATSICCHOs receive funding from the Queensland Government as community service providers and acknowledge that such funding arrangements can continue to occur, with both new and current ATSICCHOs.

100.5. Where Queensland Health engages or funds community service providers including ATSICCHOs through grant programs or recurrently funded programs, clause 99 will not apply, however, the following process must be followed:

- (a) Information about the nature of new or expanded funding arrangements will be reported to the HWFCG to ensure it meets the requirements at clause 100.
- (b) The renewal or rollover of funding arrangements, which are not new or expanded funding arrangements in accordance with clause 100.5(a), can occur without the requirement to report to HWFCG.

101.2. Insourcing opportunities exclude those contracted out services currently being performed under a contract. A viability assessment process for work currently outsourced to contractors will be completed no less than six months prior to the expiry of the contract unless otherwise agreed between the parties and subject to any legislative requirements. Where the contract contains the option to extend, viability assessments are to be completed six months prior to the opt-in date for the extension.

Example one – A five year contract expiring on 30 November 2025 is to have a viability assessment undertaken by 31 May 2025.

Example two – A three year contract expiring on 1 January 2025. The contract contains the option to extend by two years provided notice is given at least six months' prior to the contract end date. A viability assessment is to be undertaken by 1 January 2024 e.g. six months' prior to the opt-in date.

(c) An option to extend the contract will not impact upon the obligation to undertake the viability assessment six months prior to the opt-in date for the extension.

(d) To remove any doubt, the contract expiration date is the current end date of the contract, not inclusive of options to extend.

(e) This process will not prevent the use of contract extension clauses while this process continues.

101.3. In-sourcing will occur where the viability assessment process demonstrates that work is competitive on an overall basis, including quality and the cost of purchase and maintenance of any equipment required to perform the work. Where the employer requires that insourced work is performed by work units which specify industry accepted standards of accreditation or minimum qualifications for their performance, these requirements must also be met by external bidders. Work may still be considered viable to be insourced where there is a greater cost to provide the service with a directly employed workforce.

101.4. The parties will use the agreed viability assessment template. The parties recognise the mechanism to consider and document insourcing service opportunities, is the use of the agreed viability assessment template.

101.5. Where employees are identified who are suitable to perform the work of a current outsourced service which is undergoing the viability assessment prescribed at clauses 101.2 and 101.3, the placement of these employees will be a favourable consideration in the viability assessment.

101.6. Subject to this clause, existing contract arrangements will not be extended to new or replacement facilities. Opportunity will be given for in-house staff to undertake the work as outlined above. It is acknowledged that new or replacement facilities are not to be treated as greenfield sites.

101.7. In the case of positions classified up to HWF7, the parties agree that the following process will be utilised to assist employees to compete equally for work that is currently contracted out:

(a) ensure that offer documents include key performance and quality criteria to be addressed by all bidders/tenderers;

(b) provide independent in-house advice and assistance to in-house staff in the preparation of business cases;

(c) include a mechanism for monitoring and continuous improvement; and

(d) ensure that these mechanisms are relevant and appropriate.

101.8. The employer will consult with the relevant unions, advising the date a viability assessment is to begin. Once a decision has been made by the employer subject to a viability assessment in accordance with clauses 101.2 and 101.3, the outcome and relevant supporting documentation will be communicated to the relevant union/s prior to implementation. Neither party will seek to disrupt or delay the implementation of the approved outcome. Should the relevant union consider that a fair comparison has not been made then the matter should be referred to the HWFCG for resolution. This must occur in a timely manner.

101.9. The employers preferred policy position is to insource the maintenance of its technology after the expiry of the standard manufacturer's warranty where feasible. There will be no extension of warranties in those circumstances where appropriate in-house maintenance is available.

101.10. The employer will ensure that, where possible, contracts for the supply or warranty of technology include a component of training to ensure in-house maintenance remains possible. The parties acknowledge that external maintenance of certain complex technology will occur where in-house maintenance is not feasible.

102. Colocation

102.1. Colocation of public and private health services will not result in the diminution of public health service or public sector industrial relations standards in Queensland. Colocation agreements will not diminish existing arrangements for provision of public health services by the employer on a collocated site. This will not prevent the public sector providing services to the private hospitals.

102.2. Industrial representation arrangements are not a matter intrinsic to colocation agreements and thus will not be affected by these agreements. Consultative processes have been established at Department of Health and Hospital and Health Service levels to facilitate information and consultation on appropriate issues with health unions on colocation issues. These processes will continue. If it is intended that there are further colocations of public and private health services, full consultation will occur at the outset with the relevant union/s.

PART 14 —Equity and flexible working arrangements

103. Equity

103.1. The parties are committed to the principles of equity and suitability and thereby to the objectives of the *Public Sector Act 2022*, the *Anti-Discrimination Act 1991* and the Equal Remuneration Principle (Queensland Industrial Relations Commission Statement of Policy 2002) and other anti-discrimination legislation.

103.2. The employer will meet its statutory obligations under the *Public Sector Act 2022* to consult with relevant unions by agreed consultative mechanisms.

103.3. Statewide consideration relating to employment equity can be managed through referral to the statewide consultative forum known as the Reform Consultative Group, comprising of representatives from the Department, Hospital and Health Services and relevant unions.

103.4. It is the intention of the parties to prevent unlawful discrimination or vilification in the workplace. Employees are also required to ensure that they do not engage in any action that could be considered as sexual harassment.

103.5. The parties acknowledge that achievement of equity outcomes is largely contingent upon commitment of management to equity outcomes. This will be demonstrated by management practices, the provision of ongoing Equal Employment Opportunity training for managers and employees, the maintenance of Equal Employment Opportunity networks throughout the Department and Hospital and Health Services and the commitment to achieve agreed equity outcomes at the facility and corporate office level.

104. Gender equity

104.1. The employer is committed to taking proactive measures to achieve gender pay equity, where all employees receive equal remuneration for work of equal or comparable value.

104.2. This Agreement satisfies the requirement under the *Industrial Relations Act 2016* that the employer has implemented, will implement or is implementing equal remuneration for work of equal or comparable value in relation to the employees covered by this Agreement.

104.3. The parties are aware of and committed to their obligations in terms of gender equity as provided for in legislation, regulation and directives.

- 104.4. The parties are committed to applying the provisions of this Agreement, the Award and relevant Directives regarding increment appointment and progression within a classification level, and ensuring any discretionary provisions are utilised in a fair and equitable manner irrespective of gender.
- 104.5. The parties further acknowledge that this Agreement includes a number of commitments and actions which contribute to closing the gender pay gap and removing barriers to full and equal participation of women in the workplace. This includes for example clauses 35.3(a), 36, 98.3, Schedule 8 and Schedule 9 of this Agreement.
- 104.6. The parties agree to investigate ways in which employees who are secondary caregivers can be encouraged and supported in taking a greater role in caring responsibilities, such as parental leave, part-time work and flexible work.
- 104.7. The parties agree to investigate ways in which further efforts can be made to increase gender diversity across all classification levels covered by this Agreement.

105. Flexible working arrangements

- 105.1. The *Flexible Working Arrangements Guideline* has been developed for the purpose of achieving work life balance. Queensland Health is committed to implementing all strategies and performance indicators as agreed.

- 105.3. Further, in accordance with the *Industrial Relations Act 2016* the request must:

 - (c) state the reasons for the change.
- 105.4. The employer may decide to grant the request or grant the request in part or subject to conditions; or refuse the request. The employer may grant the request in part or subject to conditions, or refuse the request, only on reasonable grounds.
- 105.5. The employer must give the employee written notice about its decision within 21 days after receiving the request. If the employer decides to grant the request in part or subject to conditions or to refuse the request, the written notice about the decision must state the reasons for the decision, outlining the reasonable grounds for granting the request in part or subject to conditions or for the refusal.
- 105.6. The parties acknowledge that increased flexibility and improvements in working arrangements can further the aims of efficiency, effectiveness and equity.

106. Work/life balance and allocation of duties

- 106.1. The parties acknowledge that the fair treatment of workers improves productivity and reduces turnover. Where a manager is allocating conditions and/or responsibilities such as rostered hours of work, overtime, higher duties, role allocations and workload, this allocation will be fair and reasonable taking into account operational requirements for workers that express their interest.
- 106.2. The parties are committed to ensuring that work/life balance policies are promoted. This includes the promotion of transition to retirement initiatives.
- 106.3. The employer is committed to workplace practices that improve the balance between work and family for its employees whilst ensuring safe and adequate patient care. The parties commit to ensuring work life balance is genuinely considered when developing rosters.

- 107.1. The parties to this Agreement recognise the importance of access to affordable and appropriate childcare for employees. Given that the employer is a major public sector employer with a workforce comprising of a high percentage of female employees required to work non-standard hours, access to childcare is an important issue. The parties acknowledge that the availability of appropriate childcare services assists with the recruitment and retention of staff, enhances productivity and improves staff morale. - 108.1. The employer recognises that workplace bullying is a serious workplace issue which is not acceptable and must be eliminated.
- 108.2. All employees have the right to be treated fairly and with dignity in an environment free from adverse behaviours such as intimidation, humiliation, harassment, victimisation, discrimination and bullying.
- 108.3. The employer recognises that adverse behaviours such as these are serious workplace issues, which are not acceptable and must be eliminated from the workplace.
- 108.4. The Code of Conduct for the Queensland Public Service applies to all employees covered by this Agreement. - 108.5. The employer supports the accepted industrial principle that all employees have the right to raise concerns with their employer about issues of bullying or workplace behaviour without fear of victimisation. Unions may refer instances of alleged victimisation directly to the HWFCG for attention.
- 108.6. The employer is committed to protecting and improving the health and wellbeing of all employees and their immediate family by providing employee assistance.

109. Breastfeeding and work

- 109.1. Queensland Health is committed to the application of the Public Sector Commission Breastfeeding and Work Policy and to a supportive work environment for employees who choose to breastfeed. Decisions made regarding requests for lactation breaks and flexible work options must be fair, transparent, and capable of review.
- 109.2. Lactation breaks are to be made available to employees to breastfeed or express breast milk during work hours. Where possible, lactation breaks are to be provided as time off without debit. All Queensland Health employees are entitled to a total of one hour paid lactation break/s for every eight hours worked. SCHEDULE 9 – Aboriginal and Torres Strait Islander Health Workforce education scheme

1. Education scheme

The Aboriginal and Torres Strait Islander Health Workforce Education Scheme (Education Scheme) has been created as an outcome of the clause 26 Phase 2 review of the *Aboriginal and Torres Strait Islander Health Workforce (Queensland Health) Certified Agreement (No. 1) 2019*.

The Education Scheme will enable Aboriginal and Torres Strait Islander Health Workforce stream employees to access leave and financial assistance to undertake eligible qualifications in specified circumstances to assist Queensland Health in meeting current and projected workforce needs. Queensland Health may alter and/or cease certain arrangements under the Education Scheme as particular workforce circumstances change and/or resolve over time.

The Education Scheme is centrally funded by the Department of Health.

The Education Scheme contains three categories of assistance:

1. Essential
2. Highly Desirable Level 1
3. Highly Desirable Level 2.

Criteria for each category and the nominated delegate are outlined in clause 3 of this Schedule. A HR policy will be created in accordance with clause 77.1(b)(A), which will include details of the eligible employees and the qualifications which will be supported under each category, alongside associated application forms.

Employees and managers have a shared responsibility to ensure minimal disruption to service delivery as a result of leave assistance under the Education Scheme. Where practicable, courses are to be undertaken at an institution as close as possible to where the employee works and in their own time. All leave is to be approved in advance by the employee's supervisor, taking into consideration the operational requirements of the work unit.

Where an employee is making an application under the Essential category to complete a mandatory requirement for their role/profession, the application is to be supported unless exceptional circumstances exist. This includes employees who have received an exemption from holding a qualification in the Aboriginal and Torres Strait Islander Health Workforce stream, and employees at classifications HWF2 and HWF3, where the higher Certificate IV and/or Diploma is not mandatory for their current classification level.

Other circumstances and qualifications provided under the Essential, Highly Desirable Level 1 and Highly Desirable Level 2 categories may be approved where the employee meets the relevant eligibility criteria.

Where a Hospital and Health Service, or a number of Hospital and Health Services within the same geographical area, have a large number of employees wishing to study the same qualification, consideration may be given to establishing and funding a locally delivered course. Utilisation of funding in such cases requires approval of the Human Resources Branch.

Following its introduction, the Education Scheme will be subject to a review which will consider the application of the scheme and finalise ongoing arrangements. The review will consider the support provided under each category of assistance, included qualifications, the sustainability of the Education Scheme, the effective and efficient use of public funds, the benefits to Queensland Health and the State of Queensland, and outcomes. The review will be completed by the nominal expiry of this Agreement and is subject to the approval of the Director-General or authorised delegate on advice from the Office of the Chief First Nations Health Officer and the HWFCG.

The review may recommend that Queensland Health alters or improves the support provided in the categories, and introduce caps and/or quotas for support under the Highly Desirable Level 1 and Highly Desirable Level 2 category.

2. General requirements

The following is to apply regarding the provision of the Education Scheme:

- Education Scheme funding is to be administered in a planned and consistent manner that ensures optimal use of Queensland Health funding. The use of these funds is to comply with all applicable legislation and in a manner that can withstand public scrutiny.

- Resources are to be managed to allow all applications for Education Scheme assistance to be considered in a fair and equitable manner.
- The Education Scheme is approved on a:
 - Per course or unit of competency basis, for Vocational Education and Training (VET) qualifications (AQF levels 2 to 6)
 - Per semester/trimester basis, for university qualifications (AQF level 5 and above).
- The Education Scheme must be clearly linked to learning and development through a performance and development (PAD) plan. Refer to *HR Policy G9 Performance and Development* for information on PAD.
- Paid leave or financial assistance under the Education Scheme will not be provided for an employee repeating a subject, unless the delegate considers that extenuating circumstances caused, or largely contributed to, failure to pass the subject. Such situations may include an extended illness, Sorry Business, pregnancy or personal issue.
- Any circumstances not covered, or otherwise approved, under the Education Scheme remain subject to standard Queensland Health study and training arrangements. Employees continue to have access to such arrangements including applications under *HR Policy G10 Study and Research Assistance Scheme (SARAS)*, local Hospital and Health Service training funding arrangements, scholarships/bursaries and/or by the employee self-funding the qualification, including by utilising their own professional development allowance and leave entitlements (where eligible).
