

# Choose Central Queensland Health

for the best of work and life

## Make your mark as a Resident Medical Officer in Central Queensland

Join our team knowing that your progression is our priority and our easy lifestyle gives you more time to enjoy the things you love.

### Your opportunity

RMO terms are available at Rockhampton, Gladstone and Emerald hospitals, providing a broad scope of practice. Our personalised medical teams provide RMOs with hands on experience for clinical procedures. You'll benefit from career guidance and mentoring from our Director of Clinical Training and Medical Education Officers.

#### Rotations

Medicine; Surgery; Emergency; Orthopaedics; Geriatrics and Rehabilitation; Palliative Care; Mental Health; Paediatrics; Cardiology; Renal; Oncology; Anaesthesia; Intensive Care; Obstetrics and Gynaecology; Urology and Ophthalmology; Ear, Nose and Throat; Capricorn Coast Hospital and Health Service.

#### Research and courses

Enjoy research opportunities with the University of Queensland Rural Clinical School.

Broaden your knowledge with access to courses like Advanced Life Support (ALS), Recognition and Management of the Deteriorating Patient (RMDP), neoResus and Paediatric BLS/ALS.

Central Queensland Health is an accredited provider for the Australian Medical Council Workplace Based Assessment program. This program provides an alternate pathway to General Registration for those Medical Officers with Limited Registration on the Standard Pathway.

### Why choose Central Queensland?

Home to the best of the beach and the bush, enjoy weekends swimming at Great Keppel Island or bush walking at Blackdown Tablelands.

We proudly boast 300+ days of sunshine per year, with average temperatures between 20 and 34 degrees year round.

With domestic airports in Rockhampton, Emerald and Gladstone, a weekend in Brisbane is only an hours flight away. Our train and road networks make exploring our region easy.

Enjoy the stunning Central Queensland scenery, featuring everything from dive reefs and migrating whales to mountain ranges and bush hiking trails.

Rockhampton offers a range of high performing private and public primary and high schools, as well as TAFE and CQUniversity.

We are proud of our family-friendly communities and have a wide range of employment, health and sporting facilities.

### Regional Medical Pathway

We're proud to support the Regional Medical Pathway (RMP), a major partnership between The University of Queensland, CQUniversity and the Central Queensland and Wide Bay Hospital and Health Services.

REGIONAL  
MEDICAL  
PATHWAY

An Australian-first initiative, the RMP provides local community supported, end-to-end medical education and training designed to address workforce shortages in the Central Queensland and Wide Bay regions. This Pathway involves student placements across the education continuum and learning opportunities through pre-vocational and vocational training.

The RMP includes a variety of opportunities for clinicians to engage as teachers, mentors, tutors and researchers as a way of ensuring the future of the medical profession in regional, rural and remote Queensland.
