

# Career Kick Start

## Mackay Hospital and Health Service

**FIND OUT  
MORE**

### Build your portfolio

Build evidence of your experience and use that data to guide your learning

### Learn from patients

Every patient you see is a lesson in much more than the malady from which he suffers. - William Osler

### Play to your strengths

Understand and choose a career that plays to your strengths

### Be open to coaching

Be open to feedback from those around. Find a clinician you respect and ask them to observe you and provide you with feedback

### Diversify your experience

Be open to experiences which will lay a broad deep foundation on which to base your specialisation

### Preference Mackay

Our training program incorporates all these principles to kick start your career
