Hospital Facilities

Join our dynamic team of dedicated addiction and mental health professionals at MSAMHS, a major healthcare provider, delivering both inpatient and community specialist mental health and alcohol and drug services to a large and culturally diverse population.

MSAMHS provides mental health care and addiction services to the largest culturally and linguistically diverse population in the state, and to the regions that have some of the highest population growth in the country.

In addition to the inpatient and community services, we also deliver acute care services which may be undertaken in the consumer's home, in general practitioner surgeries or in emergency departments.

Services are provided across the lifespan, from child and youth to adult, as well as older persons through our specialist programs.

MSAMHS also provides professional training, early prevention, community rehabilitation, homeless outreach, indigenous liaison, suicide prevention, neuropsychiatry, addiction medicine, education and research, through our numerous partnerships with universities and other centres of learning.

- Princess Alexandra Hospital is a 73-bed adult mental health facility and has 16 older adult mental health beds.
- Logan Hospital is a 80-bed unit that includes adult mental health and co-morbid Alcohol and Drug presentations and 10-bed adolescence unit.
- Redland Hospital is a 24-bed adult facility.
