COMMUNITY AND ORAL HEALTH (COH)

RMO Campaign 2026

Location information

Community and Oral Health (COH) is part of Metro North Health, the largest health service in Queensland which cares for more than one million people every year. We operate more than 250 beds each day across Hospital in the Home, Subacute Geriatrics, rehabilitation, transition care and specialist residential care services, along with delivering a significant amount of important community and oral health services.

At COH our focus is on management of longer-term complex medical conditions, maintaining independence in the community and transitional care.

The services we deliver include but are not limited to:

- Residential aged care at two nursing homes at Brighton and Kippa Ring.
- Interim Care.
- Geriatric Evaluation and Management.
- Community-based, home visiting and bedded rehabilitation services.
- Community Palliative care.
- Complex chronic disease and healthy aging care at our community facilities or in the home.
- Care in the home.
- Transitional bedded and community-based services for people returning home or entering a nursing home.

COH encompasses many functionally and geographically diverse services. As an RMO at COH you may opt to rotate through a number of sites these include:

Brighton Health Campus:

Brighton Rehabilitation Unit – Dolphin House
Interim Care – Dolphin House and Ebbtide House
Geriatric Evaluation & Management Unit – Ebbtide House
Geriatric Evaluation and Management in the Home (GEMITH)

North Lakes Health Precinct:

Community Palliative Care
Hospital in the Home

Zillmere Residential Transition Care

Bribie Island Satellite Health Centre

Healthy Ageing Assessment & Rehabilitation Treatment (HAART) Service

More information is available [here:](https://www.qld.gov.au/health/services/satellite-health-centres/bribie-island-satellite-health-centre)

Employment conditions

- Medical Officer Award and MOCA 6 conditions – 76 hour fortnight.
- Lifestyle friendly! – limited after hours work.
- Free Parking.

Medical Education

Community and Oral Health supports RMOs through their years of pre-vocational training via a robust curriculum through Redcliffe Hospital and The Prince Charles Hospital. COH has several local education sessions including Grand rounds and discipline specific teaching. Additionally, COH has local medical education coordination for orientation, education, wellbeing, career counselling and performance support for doctors at all levels.

Community and lifestyle

COH offers a variety of working environments across our different sites including our largest campus, Brighton Health Campus, situated along the beautiful shoreline of Sandgate/Brighton.

COH locations are conveniently situated around metropolitan areas but outside of the immediate central business district areas of Brisbane City. This gives easy access to both Brisbane City amenities as well as the coastal lifestyle and activities around the Redcliffe Peninsula and Sandgate. Beautiful Sunshine Coast is also only about an hour's drive away.

ROSTERING/SCHEDULING

COH encourages a work life balance for our doctors. Our after hours/weekend rostering is designed to be family and lifestyle friendly.
