ABOUT OUR ORGANISATION:

Queensland Health's mission is 'creating dependable health care and better health for all Queenslanders'. Within the context of this organisation there are five core values that guide our behaviour. These values are -

- **Caring for People:** Demonstrating commitment and consideration for people in the way we work.
- **Leadership:** We all have a role to play in leadership by communicating a vision, taking responsibility and building trust among colleagues.
- **Respect:** Showing due regard for the feelings and rights of others.
- **Integrity:** Using official positions and power properly.
- **Innovation:** We value creativity. We are open to new ideas and different approaches and seek to continually improve our services through our contributions to, and support of, evidence, innovation and research.

PURPOSE OF POSITION:

The Respiratory Medicine Advanced Trainee is an advanced trainee registrar of the Royal Australasian College of Physicians. The Advanced Trainee provides inpatient and outpatient medical services within the Department of Respiratory Medicine and a consultative service to other departments. It is intended that the Advanced Trainee will maximise his or her professional development, with a view to completing specialist training according to the guidelines of the RACP and the TSANZ. It is expected that the Advanced Trainee will be involved in the professional development of junior medical staff.

KEY ACCOUNTABILITIES:

EDUCATIONAL AND RESEARCH RESPONSIBILITIES:

Personal:

- Demonstrate a high level of motivation, commitment and enthusiasm while developing an understanding of the theoretical aspects, and clinical proficiency in management of patients with respiratory and other conditions.
- Actively participate in the Department's educational and patient care meetings. This may include organising or chairing meetings when required or being present and contributing to the discussions.

- Develop the social and ethical behavioural skills required of a practitioner. This includes developing the communication skills necessary to effectively produce positive patient outcomes.
- Actively participate in supervised training opportunities provided by the Hospital, Queensland Respiratory Advanced Training Committee, and TSANZ-Qld.
- Undertake a planned program to establish and maintain an appropriate knowledge base.
- Undertake self-education and practice of evidence-based medicine strategies and knowledge.
- Develop necessary personal management skills including time management, prioritisation, and effective delegation.
- Keeping a personal record of required procedures, presentations, and responsibilities.
- Participation in the inter-hospital Respiratory and Sleep Medicine dinner meetings, TSANZ-Qld winter meeting, and November physiology day is expected.
- Presentation at the November Advanced Trainee Research evening is expected.

Professional:

- Participate in education programs for patients, their relatives, and the general community.
- Assist in the teaching duties of the unit for junior medical staff, medical students, and other health care professionals.
- Serve as a role model for junior medical staff in behaviour and attitude and develop the necessary personnel management skills to effectively supervise and support the RMO.
- Research: an interest in research and commitment to performing a research project.

Administrative Duties Include:

- Complying with and promoting hospital policies and procedures including workplace health and safety, equal employment opportunity and anti-discrimination policies.
- Ensuring appropriate arrangements for transfer of patients to the community are in place.
- Maintenance of accurate records (using legible handwriting if appropriate) and prompt completion of discharge summaries, according to Hospital policy including ensuring reliable and complete follow-up of outstanding results.
- Responsive communication with referring practitioners.
- Participating in the collection of outcome-based clinical information.
- Participation in peer review and quality assurance programs.
- Other administrative tasks, as required.

PRIMARY DELEGATIONS AND ACCOUNTABILITIES:

- Accountable to senior medical officers for the overall clinical care of allocated patients, as well as for maintaining the highest professional standards of practice and care.
- Accountable to Supervising Medical Consultant for professional development.
- Accountable to the Director of Respiratory Medicine and finally the HHS Chief Executive Officer for compliance with hospital policy and procedures, for general behaviour and standards, practice and care. In particular, the Registrar is responsible to assist in ensuring economy in the use of equipment, prescribed medications, consumables, and investigations. The use of certain types of prescribed medications, i.e. subject to approval by a higher medical authority.

Under supervision of senior medical staff, clinical duties include:

- Acting on behalf of senior medical staff, to ensure that problems are identified, and patients are fully assessed.
- Maintaining responsibility for planning of all clinical care, in consultation with senior medical staff.
- Supervising the appropriate selection and arrangements of investigations for patients.
- Developing a close, supportive, working relationship:
 - (a) to provide day to day supervision and guidance to junior house officers/interns working in the Respiratory Medicine Unit.
 - (b) with nursing and allied health staff.
- Maintaining responsibility for overall management of patients assigned to their care by senior medical officers. This includes assessment of consultations (generally within 1 working day) and the provision of ongoing advice where necessary.
- Compiling appropriate comprehensive, timely and concise documentation of all observations, opinions, diagnoses, other data and procedures undertaken.

- Undertaking appropriate and timely summary documentation, particularly when responsibility for the care of the patient is transferred.
- Undertaking appropriate consultation with colleagues, other professional staff, patients and their relatives.
- Ensuring appropriate communication with senior medical staff, taking responsibility for advising on and implementing major decisions for care.
- Providing appropriate medico-legal and other (e.g., insurance) reports, as required.
- Maintaining patient comfort and safety in co-operation with nursing and allied health staff in accordance with hospital policy.
- Participation in weekend and on-call rosters.
- Other clinical duties as required.

PERSONAL SPECIFICATION:

MANDATORY REQUIREMENTS/QUALIFICATIONS

- A medical degree registrable with the Medical Board of Queensland, and at least three years of recent post-intern clinical experience in internal medicine or its subspecialties.
- Able to obtain advanced training approval from the Royal Australasian College of Physicians.
- A sound knowledge of and commitment to the Code of Conduct for the Queensland Public Service.

KEY SKILL REQUIREMENTS (or Competencies)

- KSR1:** Successful completion of the primary examination of the Royal Australasian College of Physicians, or substantial progress towards the standards set by the College –
MANDATORY
- KSR2:** Demonstrated evidence of competence and safe practice in the management of a wide variety of medical conditions.
- KSR3:** Highly developed interpersonal skills including the ability to work within Departmental and Hospital goals.
- KSR4:** Excellent written and oral communication skills necessary for effective interaction with the public and Hospital staff, as well as the ability to make presentations to an audience.
- KSR5:** Demonstrated commitment and motivation to ongoing education and research within Respiratory Medicine.
- KSR6:** Commitment to total quality and risk management programs within Respiratory Medicine and related disciplines.

HOW TO APPLY

Applications are to be submitted via the RMO2025 Campaign website:

www.careers.health.qld.gov.au/rmo

Please provide the following information for the panel to assess your suitability:

- **Your current CV/ resume, including referees.** Referees should have a thorough knowledge of your work performance and conduct, and it is preferable to include one current and one previous supervisor. Referees will only be contacted with your consent.
- **A response** (maximum of 2 pages) to the above Key Skill Requirements on how your experience, abilities and knowledge would enable you to achieve the key accountabilities and meet the key skill requirements.
- **Hospital preferences** 1-10. Do not preference any positions that you would not be willing to accept.
- These documents should be merged into one file and submitted in the CV section of the online application form.
